

**Melita Irving, MD**  
**Clinical Geneticist**

*Guy's and St Thomas' NHS Foundation Trust*

Melita Irving trained in paediatrics before joining the clinical genetics department at Guy's and St Thomas'.

She undertook a fellowship in skeletal dysplasia at the Royal Children's Hospital, Melbourne and has established multidisciplinary paediatric clinics in skeletal dysplasia, achondroplasia at the Evelina London Children's Hospital.

She is lead clinician in the clinical genetics department, which provides a regional service across south London, Kent and east Sussex. She is committed to improving this service in line with new developments in the field, such as genomic medicine, and to translational research in rare diseases.

For more information about Dr. Irving, including her publication list, visit her [institution website](#).
