

Michael J. Goldberg, MD

Pediatric Orthopedist

Seattle Children's Hospital

Michael J. Goldberg, MD is Clinical Professor of Orthopaedics at the University of Washington School of Medicine. Most of his professional career was spent in Boston where he was the Henry H. Banks Distinguished Professor of Orthopaedics at Tufts University School of Medicine, and Chairman of the Department of Orthopaedics at Tufts Medical Center. Dr. Goldberg's major areas of clinical interest have been in the diagnosis and management of children with syndromes, complex birth defects, and skeletal dysplasia. He has been a vocal advocate for measuring outcomes and functional performance of children undergoing orthopaedic treatments and helped develop some of the tools now in common usage.

Born in Brooklyn, New York, Dr. Goldberg was educated at Cornell University, State University of New York College of Medicine, Columbia Presbyterian Medical Center, and the Combined Harvard Orthopaedic Program. He has published widely, including the textbook "The Dysmorphic Child"; and currently sits on the editorial boards of the Journal of Pediatric Orthopaedics and the Journal of Children's Orthopaedics. He has lectured both nationally and internationally, and was awarded Honorary Membership in the Pediatric Orthopaedic Society of Argentina; of Brazil; and of Italy; and the Sonia Machanic Fellowship in the College of Medicine of South Africa. He has received recognition awards from POSNA, the American Academy of Pediatrics, and the Arthritis Foundation. Dr. Goldberg has served in leadership positions and elected office at the Pediatric Orthopaedic Society of North America, the American Academy of Pediatrics, the American Academy of Orthopaedic Surgeons, the AMA, and the ACGME. Believing that a physician's responsibility is to comfort and heal in addition to attempting cure, Dr. Goldberg has emphasized the importance of art, music, and literature as a way to understand patients and their diseases. Married to Fran, they have two daughters and two grandchildren and continue to live bicoastal in Boston, MA and Seattle, WA.
